

attentive energy two

Attentive Energy Two, a joint venture between TotalEnergies and Corio Generation, is an offshore wind project that will bring renewable energy to New Jersey, create new pathways for a local workforce and supply chain, and forge opportunities for innovation and the energy transition.

- 1,342 MW of clean energy delivered to the NJ grid
- Over 650,000 homes powered annually
- Approx. 42 miles east of Seaside Heights
- Landfall at Sea Girt and interconnection at Larrabee Collector Station in Howell
- Commercial operation anticipated for 2031

One of the leading renewable energy developers, with 25 GW in the U.S. renewable pipeline to be installed by 2030 and more than 4 GW of offshore wind in development.

One of the globally leading offshore wind developers, dedicated to harnessing renewable energy from the sea, with a project pipeline of 30+ GW.

Powering New Jersey Forward

Community Driven Investments: Over \$100 million in community investments supporting a diverse group of 30 partners across environmental justice; labor, workforce, and supply chain; education; open space; biodiversity and conservation; research and development; and more.

Jersey Made - Anchoring the Local Supply Chain and Local Labor: Committed to working with small and diverse business partners and unions to localize the supply chain and workforce, promoting equality of economic opportunities and eliminating barriers to participation. Committed to marshalling at the New Jersey wind port.

Reigniting the State of Innovation: Creating innovation ecosystems, bolstered by cutting edge research, development and opportunity. Investments in partnerships that will catalyze new advances in renewable energy research and technology.

Prioritizing Biodiversity and Environmental Conservation: Project aims to achieve a no net loss of biodiversity, no net loss of commercial fishing revenue and a net positive impact to targeted species. Initiative backed with at least \$30 million for environmental and fisheries programs and anchored by a pioneering partnership with Rutgers University to conduct research and monitoring.

Track Record of Global and Local Energy Deployment: Both of AE2's sponsors, TotalEnergies and Corio Generation, have successfully deployed offshore wind globally and directly invested in New Jersey's critical infrastructure and energy projects across the state resulting in hundreds of jobs and millions of dollars of economic activity.
